

# SAFETY DATA SHEET

## TOILAWAY

Infosafe No.: CI02K  
ISSUED Date : 07/10/2021  
ISSUED by: CUSTOM CHEMICALS  
INTERNATIONAL PTY LTD

### 1. Identification

**GHS Product Identifier**

TOILAWAY

**Product Code**

0010045

**Company name**

CUSTOM CHEMICALS INTERNATIONAL PTY LTD (ABN 73 050 537 674)

**Address**

103-107 Potassium Street Narangba

QLD AUSTRALIA

**Telephone/Fax Number**

Tel: 07 3204 8300

Fax: 07 3204 8311

**Emergency phone number**

13 1126 in Australia (AH)

**Recommended use of the chemical and restrictions on use**

Water based disinfectant/detergent

**Other Names**

Name
Toilet & Urinal Cleaner

### 2. Hazard Identification

**GHS classification of the substance/mixture**

Classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety Regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Eye Damage/Irritation: Category 2A

**Signal Word (s)**

WARNING

**Hazard Statement (s)**

Causes serious eye irritation.

**Pictogram (s)**

Exclamation mark

**Precautionary statement – Prevention**

Wash contaminated skin thoroughly after handling.

**CustomCare**

Wear protective gloves/protective clothing/eye protection/face protection.

#### Precautionary statement – Response

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
If eye irritation persists: Get medical advice/attention.

### 3. Composition/information on ingredients

#### Ingredients

Name	CAS	Proportion
Sulfamic acid	5329- 14- 6	1- 5 %
Citric Acid	77- 92- 9	1- 5 %
Alcohol, C10- C16 Ethoxylated	68131- 39- 5	<1 %
Oxirane, 2- methyl, polymer with oxirane, mono(2- propylheptyl) ether	166736- 08- 9	<1 %
Quaternary Ammonium Compound	68424- 85- 1	<0. 5 %
Other ingredients classified as non hazardous at the concentrations used according to the criteria of Safe Work Australia	-	-

### 4. First-aid measures

#### Inhalation

If inhaled, remove affected person from contaminated area. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position. Apply artificial respiration if not breathing. Seek medical attention.

#### Ingestion

Do not induce vomiting. Wash out mouth thoroughly with water. If vomiting occurs, give further water to achieve effective dilution. Seek immediate medical attention.

#### Skin

Wash skin with plenty of water. Ensure contaminated clothing is washed before re-use or discard. Seek medical attention if burning, irritation or redness develops.

#### Eye contact

If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. Seek immediate medical attention.

#### First Aid Facilities

Eyewash, safety shower and normal washroom facilities.

#### Advice to Doctor

Treat symptomatically.

#### Other Information

For advice in an emergency, contact a Poisons Information Centre (Phone Australia 131 126) or a doctor at once.

### 5. Fire-fighting measures

#### Fire Fighting Measures

Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self contained breathing apparatus if risk of exposure to products of combustion or decomposition.

#### Suitable Extinguishing Media

Use extinguishing media suitable to surrounding fires.

#### Hazards from Combustion Products

Non combustible material however if involved in a fire will emit toxic fumes.

#### Specific Hazards Arising From The Chemical

This product is non combustible.

## 6. Accidental release measures

### Spills & Disposal

Minor spills do not normally need any special clean up measures. In the event of a large spill, prevent spillage from entering watercourses. Wear appropriate protective equipment (as listed in Section 8 of this SDS) to prevent eye and skin contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material to be collected in appropriately labelled containers for disposal by an approved agent according to local regulations.

Residual deposits will remain slippery, wash down with excess water. If required, neutralise with sodium metabisulphite or sodium thiosulphate. If contamination of drains or sewers occurs advise local emergency services.

### Clean-up Methods - Large Spillages

In the event of a large spill notify local environmental protection authority.

## 7. Handling and storage

### Precautions for Safe Handling

Avoid contact with incompatible materials. When handling DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with water after handling.

### Conditions for safe storage, including any incompatibilities

Store in a cool dry well-ventilated area. Do not store in aluminium or light alloy containers. Keep containers closed when not in use, securely sealed and protected against physical damage. Inspect regularly for deficiencies such as damage or leaks.

## 8. Exposure controls/personal protection

### Occupational exposure limit values

Substance	Regulations	Exposure Duration	Exposure Limit	Units	Notes
Quaternary Ammonium Compound		TWA	not set	mg/m <sup>3</sup>	
Quaternary Ammonium Compound		STEL	not set	mg/m <sup>3</sup>	

### Appropriate engineering controls

Ensure ventilation is adequate to maintain air concentrations below exposure standards. Avoid generating mists of the product. Use in a well ventilated area.

### Respiratory Protection

Not required for normal cleaning operations with adequate ventilation.

### Eye Protection

Generally not required to handle properly diluted solutions of the product. The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting etc.

### Hand Protection

Generally not required to handle diluted solutions of the product. People with sensitive skin should wear gloves. Overalls, work boots & elbow length gloves are recommended for handling the concentrated product in quantity, cleaning up spills, decanting etc. Materials suitable for detergent contact - Butyl rubber, natural latex, neoprene, PVC and nitrile.

## 9. Physical and chemical properties

Properties	Description	Properties	Description
Form	Liquid	Appearance	Blue liquid
Odour	Fragrant	Freezing Point	Approx 0°C
Boiling Point	100°C	Solubility in Water	Miscible in all proportions.
Specific Gravity	1.00 - 1.02 (25°C)	pH	0.8 - 1.5 (neat)
Vapour Pressure	Not available	Volatile Component	ca. 80%
Flash Point	Not flammable		

## 10. Stability and reactivity

---

### Chemical Stability

Stable under normal conditions of storage and handling.

### Conditions to Avoid

May corrode mild steel, copper, aluminium and zinc fittings. Natural rubber is unaffected but some synthetic rubbers may develop surface stickiness.

### Incompatible materials

Incompatible with anionic surfactants, certain inorganic silicates and nitric acid.

### Hazardous Decomposition Products

Product can decompose on combustion to form Carbon Monoxide, Carbon Dioxide, and other possibly toxic gases and vapours.

## 11. Toxicological Information

---

### Toxicology Information

No adverse health effects expected if the product is used in accordance with this Safety Data Sheet and product label.

### Ingestion

Ingestion of this product may result in nausea, vomiting, abdominal pain and irritation to throat, mouth and stomach.

### Inhalation

Inhalation of mists and aerosols may cause mucous membrane and respiratory irritation.

### Skin

Skin contact may cause redness, itching & irritation if there is extended contact with the concentrated product.

### Eye

Causes serious irritation. Contact will cause stinging, blurring, tearing and pain.

### Skin Sensitisation

Prolonged and repeated skin contact with undiluted solutions may induce eczematoid dermatitis.

## 12. Ecological information

---

### Ecotoxicity

Toxic to aquatic life with long lasting effects. Do not discharge to drains, sewers or waterways.

### Persistence and degradability

Individual components stated to be biodegradable.

### Mobility

Product miscible in all proportions with water. Do not discharge bulk quantities into drains, sewers or waterways.

### Environmental Protection

Prevent large amounts from entering waterways, drains and sewers.

## 13. Disposal considerations

---

### Disposal considerations

Dispose of waste according to applicable local and national regulations. Do not allow into drains or watercourses or dispose of where ground or surface waters may be affected. Wastes including emptied containers are controlled wastes and should be disposed of in accordance with all applicable local and national regulations.

## 14. Transport information

---

### Transport Information

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

### U.N. Number

None Allocated

### UN proper shipping name

None Allocated

**Transport hazard class(es)**

None Allocated

**15. Regulatory information****Regulatory information**

Classified as Hazardous according to the Globally Harmonised System of classification and labelling of chemicals (GHS) including Work, Health and Safety regulations, Australia

Classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP)

**Poisons Schedule**

S5

**16. Other Information****Date of preparation or last revision of SDS**

SDS reviewed: Oct 2021, Supersedes: June 2016

**References**

Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice.

Standard for the Uniform Scheduling of Medicines and Poisons.

Australian Code for the Transport of Dangerous Goods by Road & Rail.

Model Work Health and Safety Regulations, Schedule 10: Prohibited carcinogens, restricted carcinogens and restricted hazardous chemicals.

Workplace exposure standards for airborne contaminants.

Adopted biological exposure determinants, American Conference of Industrial Hygienists (ACGIH).

Globally Harmonised System of classification and labelling of chemicals.

**Uses and Restrictions**

Direct the cleaner directly onto the internal surface to be cleaned and allow contact time of about 5 minutes. Agitate with a toilet brush then rinse with water.

**User Information**

Toilet & Urinal Cleaner is a powerful, acid based detergent specially designed for the removal of undesirable iron and scale build up. It contains a quaternary ammonium derivative germicide to ensure good disinfectant performance.

Toilet & Urinal Cleaner has incorporated a clinging agent into the product to improve the contact time between the cleaner and the surface and to make this toilet bowl cleaner safer to handle.

**Other Information**

DO NOT MIX WITH OTHER CHEMICALS WITHOUT PRIOR CONSULTATION WITH THE MANUFACTURER. Always use product as directed. Never return any unused material to original drum.

The information sourced for the preparation of this document was correct and complete at the time of writing to the best of the writers knowledge. The document represents the commitment to the company's responsibilities surrounding the supply of this product, undertaken in good faith. This document should be taken as a safety guide for the product and its recommended uses but is in no way an absolute authority. Please consult the relevant legislation and regulations governing the use and storage of this type of product.
